About Company

Jayganesh Manohar Private Limited is a diversified engineering and agriculture services company committed to delivering innovative, reliable, and sustainable solutions. With expertise spanning electrical engineering, solar energy systems, civil project execution, and the manufacturing of high-quality signage boards and industrial panels, the company serves a wide range of infrastructure and industrial needs.

Established in **2008**, the company has consistently strengthened its presence in the **electrical and civil contracting sector**, providing comprehensive services that include the **supply, erection, testing, and commissioning of electrical goods and equipment**, as well as **the manufacturing of electrical panels and towers**. Through strong technical capabilities, experienced leadership, and a quality-driven approach, the company has earned the trust of reputed government and private sector clients. Alongside its engineering excellence, Jayganesh Manohar Private Limited is also actively engaged in **agricultural farming**, cultivating multiple species of vegetables and fruits through modern, efficient, and eco-friendly practices. This dual-sector engagement reflects the company's diversified vision and long-term sustainability focus. Driven by **quality, integrity, and client satisfaction**, and supported by a workforce of **180+ employees**, Jayganesh Manohar Private Limited continues to grow as a trusted provider of reliable technical and agricultural solutions.

KEY CORPORATE INFORMATION

Nature of Business

Supply, erection, testing, and commissioning of electrical goods and equipment; Manufacturing of electrical panels and towers.

Industry

Electrical and Civil Contracting Services

Annual Turnover

F.Y. 2023–24: Rs. 32.15 Crore
F.Y. 2024–25: Rs. 53.16 Crore
F.Y. 2025–26: Rs. 102.58 Crore

VISION & MISSION

Vision

To be a leading multi-disciplinary company recognized for engineering excellence, sustainable agricultural practices, and a commitment to innovation that contributes to community development and national progress.

Mission

- To deliver high-quality engineering solutions that meet global standards.
- To promote renewable energy and environmentally responsible project execution.
- To manufacture durable and innovative signage boards and panels for industrial and commercial use.
- To cultivate fresh, healthy, and sustainable agricultural produce using modern farming technologies.
- To ensure customer satisfaction through integrity, transparency, and timely project delivery.

CORE VALUES

- **Integrity:** Honest and transparent operations across all business functions.
- **Quality:** Commitment to delivering superior products and services.
- **Innovation:** Continuous improvement through modern technologies and creative solutions.
- **Sustainability:** Environment-friendly practices in engineering and agriculture.
- **Customer Focus:** Building long-term relationships through reliable service.

Our Services

Service 1

Electrical Engineering Services

Jayganesh Manohar Private Limited provides end-to-end electrical engineering solutions for residential, commercial, and industrial clients. Our services cover detailed project planning, load analysis, electrical layout designing, procurement, installation, testing, and commissioning. We specialize in LT/HT electrical systems, transformer installation, panel manufacturing, MCC/PCC setup, earthing systems, energy-saving audits, and electrical safety compliance. Our team ensures uninterrupted, efficient, and reliable power systems that meet industry-grade standards.

Our Services

Service 2

Civil Engineering & Construction Services

We undertake civil construction projects ranging from small-scale structures to large industrial developments. Our capabilities include RCC building construction, industrial shed installation, road and drainage development, land leveling, foundation works, and interior renovation. With strict adherence to safety standards and quality protocols, our civil division ensures strong, durable, and precisely executed construction projects.

Our Services

Service 3

Solar Energy Services

With a strong focus on renewable energy, we deliver complete solar EPC solutions tailored to the client's energy demands. Our services include site survey, system design, installation of rooftop and ground-mounted solar power plants, hybrid and off-grid systems, solar pumping systems, and solar street lighting. We also provide AMC (Annual Maintenance Contract) and performance monitoring services to ensure long-term operational efficiency. Our goal is to promote clean energy adoption with cost-effective and sustainable solutions.

Our Services

Service 4

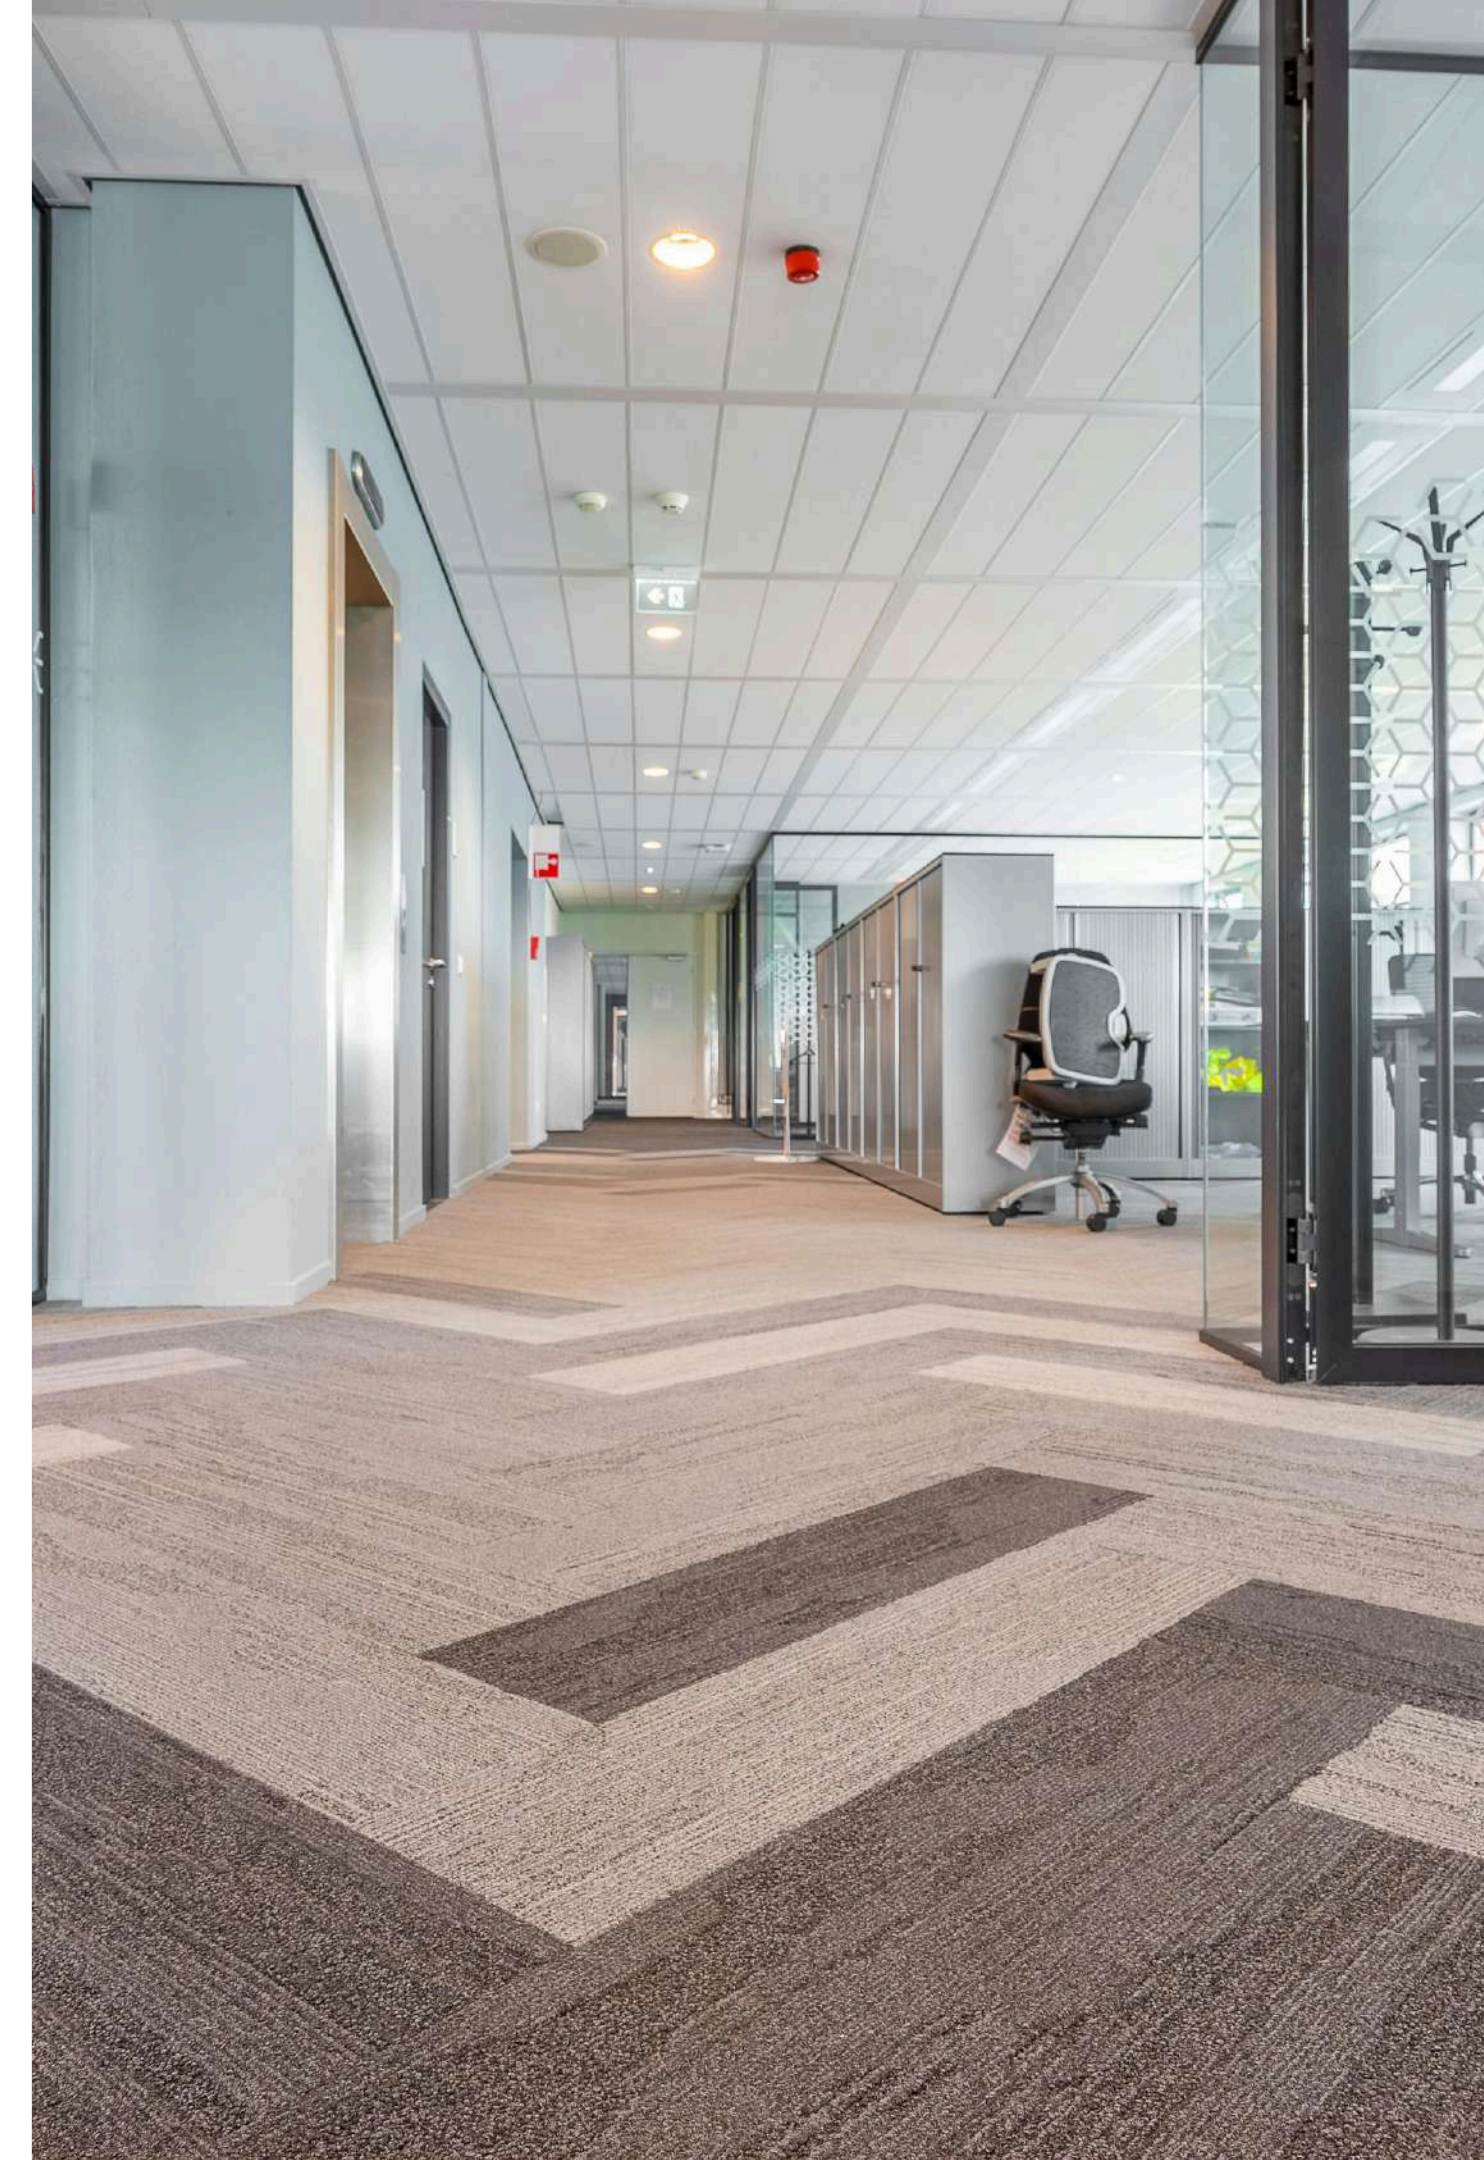

Agriculture Farming Services

Our agriculture division focuses on cultivating a wide variety of vegetables and fruits using modern and environmentally responsible techniques. Through greenhouse farming, drip irrigation, organic fertilization, and scientific crop management, we ensure high-quality produce with better yields. Our farms supply to wholesalers, retailers, and processing units, ensuring freshness and consistency in every harvest. We are committed to promoting sustainable farming practices for healthier communities.

Manufacturing Unit of Signage Boards & Panels

Our in-house manufacturing unit produces high-quality signage boards and industrial panels designed for durability, visibility, and long-term performance. We fabricate safety, regulatory, and directional signage as per industrial norms, along with customized ACP boards, glow signs, LED display boards, and nameplates. Additionally, we manufacture various types of control panels including distribution boards, AMF panels, and customized industrial panels tailored to client needs.

KEY PEOPLE

Jayganesh Manohar Private Limited is led by experienced professionals across engineering, manufacturing, and agricultural domains. The team brings together technical expertise, practical experience, and a shared commitment to delivering excellence in every project.

Managing Director

Organizational Structure

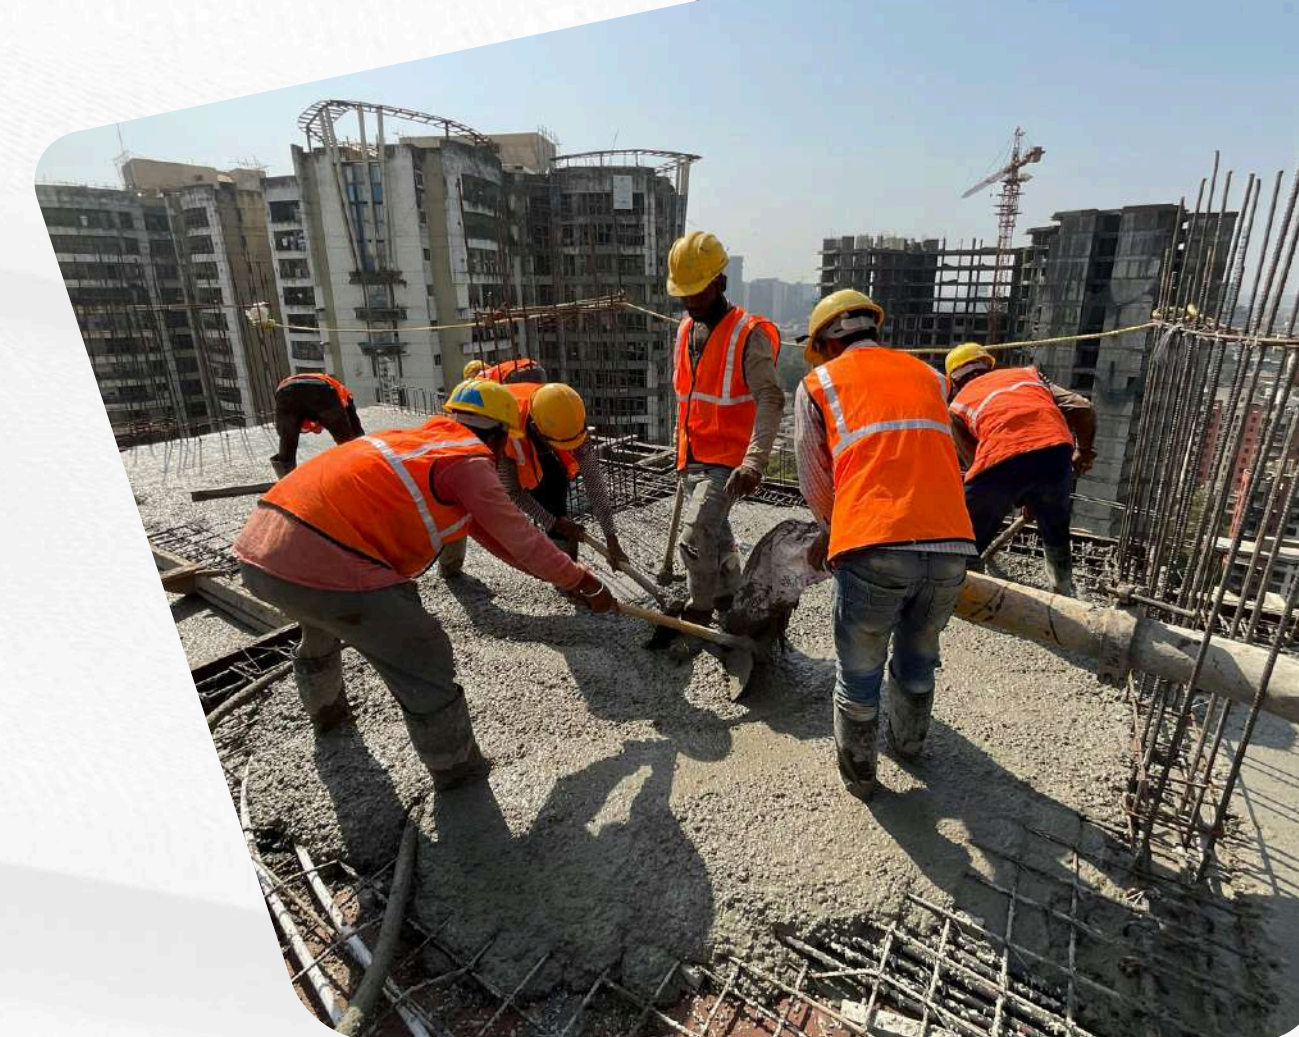

Our organizational structure ensures smooth coordination across engineering, manufacturing, supply chain, and agricultural operations. The company is led by the Director, supported by dedicated departmental heads for efficient execution:

- Director – Overall leadership, strategic planning, and business development.
- Engineering Division Head – Supervises electrical, solar, and civil engineering projects.
- Manufacturing Unit Supervisor – Oversees signage and industrial panel production.
- Agriculture Division Manager – Manages farming operations, crop planning, and workforce coordination.
- Purchase & Procurement Department – Responsible for sourcing raw materials, equipment, tools, and agricultural inputs; vendor development; rate negotiations; and ensuring timely supply of materials for all divisions.
- HR & Administration – Handles employee management, recruitment, training, compliance, and workplace welfare.
- Finance & Accounts – Manages budgeting, project cost control, payroll, and financial reporting.

This structured hierarchy enables smooth workflow, timely project delivery, and strong coordination between engineering, manufacturing, and agricultural units.

COMPANY STRENGTHS

- A dedicated workforce of 180+ skilled employees and workers across engineering, manufacturing, and agricultural operations.
- Multi-disciplinary expertise across engineering, manufacturing, and farming.
- Experienced technical team with proven project execution capabilities.
- In-house manufacturing ensuring quality control and customization.
- Strong focus on sustainability through solar energy and modern farming practices.
- Commitment to timely delivery and high client satisfaction.
- Scalable infrastructure to take on medium and large-scale projects.

HR POLICY & WORK CULTURE

Jayganesh Manohar Private Limited places high importance on the well-being, growth, and safety of its employees. Our HR policies and culture focus on creating a productive and supportive work environment:

- **Employee Training & Skill Development:** Regular training programs for engineers, technicians, and farm workers.
- **Safety First Approach:** Mandatory safety guidelines across engineering sites, manufacturing units, and agricultural fields.
- **Equal Opportunity Policy:** Fair treatment and equal opportunities for all employees.
- **Compliance & Documentation:** Transparent HR processes including appointment letters, attendance systems, payroll, and statutory compliance.
- **Workplace Welfare:** Provision of essential facilities, protective equipment, and support for field workers and technical staff.
- **Performance-Based Growth:** Periodic evaluations and opportunities for career advancement.

SAFETY STANDARDS

Jayganesh Manohar Private Limited maintains rigorous safety standards across all project sites, manufacturing units, and agricultural fields. We ensure that every employee and worker follows mandatory safety protocols designed to minimize risk and promote a secure working environment. Our safety measures include the compulsory use of safety shoes, helmets, reflective safety jackets, gloves, safety goggles, ear protection, and face masks depending on the nature of the job.

On work sites, safety supervisors conduct regular tool-box talks, safety briefings, and inspections to ensure compliance with electrical, civil, solar, and mechanical safety norms. All equipment and tools undergo periodic checks, and only trained personnel are allowed to operate machinery. Proper signage, barricading, and emergency preparedness plans are maintained at all sites. These comprehensive safety practices ensure that all activities are carried out responsibly, reducing hazards and ensuring a safe working environment for our 200+ workforce.

CERTIFICATIONS

- Electrical Contractor Licence: M.C.: 22754
- PWD “A” Class Registration: A-188
- GSTIN: 27AAECJ6138K1Z9
- ISO Certification: ISO 9000:2015 – 305022032503Q
- PF & ESIC Registration: MH/THN/204224 & 34000279760001099
- PAN: AAECJ6138K

MARKET & CLIENTS

- Maharashtra State Electrical Distribution Company Limited (MSEDCL)
- TATA Project Limited
- Railway
- Public Work Department (PWD)
- Kalyan Dombivli Municipal Corporation (KDMC)
- Navi Mumbai Municipal Corporation (NMMC)
- SMBI San Fernando Brewery
- Schneider Electric Philippines
- Electronate Enterprises Inc
- Maebarara Geothermal Power Plant
- Republic Biscuit Corporation
- Can Asia Inc
- Jobin SQM Inc (Emerging PowerInc)
- Larsen & Toubro

Why Choose Us?

- Multi-industry expertise under one roof
- Highly skilled technical and agricultural teams
- Strong project management and timely delivery
- Commitment to safety, quality, and sustainability
- Client-centric approach with customized solutions
